If a pet is not up to date, then an exam will be performed at the owner's expense.
- All pets must be current on all vaccinations against contagious disease for your pet's health and the health of all the other animals in the hospital. If vaccines are not current, then the pet will be updated at the time of drop off at the owner's expense. If vaccines were performed at another facility, records must be provided by the time of drop off. Pets that are too young to receive their full set of vaccinations may not be fully protected; the owner must accept any risk of infection.
